

Selected Transtracheal Oxygen Therapy References

Safety and Efficacy

Spofford B, Christopher KL, McCarty D, Goodman JR. Transtracheal oxygen therapy: a guide for the respiratory therapist. *Resp. Care* 1987;32:345-352.

Christopher KL, Spofford BT, Petrun MD, McCarty DC Goodman JR, Petty TL. A program for transtracheal oxygen therapy: assessment of safety and efficacy. *Ann Inter Med.* 1987;107:802-808

Kampelmacher MJ, Deenstra M, van Kesteren RG, Melissant CF, Douze JMC, Lammers J-JWJ. Transtracheal oxygen therapy: an effective and safe alternative to nasal cannula administration. *Eur Resp J* 1997; 10:828-833.

Reduced Hematocrit (superior oxygenation 24/7)

Christopher KL, Spofford BT, Branin PK, Petty TL. Transtracheal oxygen therapy for refractory hypoxemia. *JAMA* 1986;256:494-497.

Christopher KL, Spofford BT, Petrun, MD, McCarty DC, Goodman JR, Petty TL. A program for transtracheal oxygen delivery: assessment of safety and efficacy. *Ann Int Med.* 1987 107:802-808.

Increased Exercise Tolerance

Bell CW, O'Donohue WJ, Dewan N, Anderson B. Exercise tolerance improves following implementation of transtracheal oxygen therapy. (Abstract) *Am Rev Respir dis* 1988; 137:A311

Bell CW, O'Donohue WJ, Dewan N, Campbell JC, Angelillo VA, Anderson, B. Effects of transtracheal oxygen therapy on exercise capacity. *J Cardio-pulmonary Rehabilitation* 1988; 11:449-452.

Weismuller SW, Hoffman LA, Scirba FC, Ferson PF, Johnson JT, Dauber JH. Exercise tolerance during nasal cannula and transtracheal oxygen delivery. *Amer Rev Resp Dis* 1990; 141:789-791.

Reduced dyspnea (Shortness of breath)

Johnson RC, Kollef MH, Browning R. Transtracheal oxygen and the perception of dyspnea (Abstract). *Amer Rev Respir Dis* 1989; 139:A9

Scott GC, Hinson JM, Scott RP, Quigley PR, Christopher KL, Metzler M. The effects of transtracheal gas delivery on central inspiratory neuromuscular drive. *Chest* 1993;104L:1199-1202.

Heimlich HJ, Carr GC. Transtracheal catheter technique for pulmonary rehabilitation. *Annals of Otorhinolaryngology* 1985;94:502-04.

Reduced Inspiratory Minute Ventilation (Work of Breathing: WOB)

Couser JL, Make BJ. Transtracheal oxygen decreases inspired minute ventilation. *Am Rev Respir Dis.* 1989;139:627-631.

Christopher KL, Murry I, Simpson R, Goldy K, Worley P, Spofford B, Goodman JR. Transtracheal augmentation of ventilation. (Abstract) *Am Rev Respir Dis* 1990;141:A883.

Bergofsky EH, Hurewitz. Airway insufflation: physiologic effects on acute and chronic gas exchange in humans. *Am Rev Resp Dis* 1989;140:885-90.

TTO2 and reduced hospitalizations

Hoffman LA, Dauber JH, Weismuller SW, Ferson PF, Johnson JT, Zullo TG, Owens GR, Scirba F. Nasal cannula and transtracheal oxygen: a comparison of patient's response following six months use of each technique. *Am Rev Resp Dis.* April 1992;145:827-831.

Bloom BS, Daniel JM, Wiseman M, Knorr RS, Cebul R, Kissick WL. Transtracheal oxygen delivery and patients with chronic obstructive pulmonary disease. *Respiratory Med* 1989;83:281-288.

Clifford D, Mender J, Worley P, Goodman JR. Transtracheal oxygen improves survival and reduces hospital costs. (Abstract) *Amer J Crit Care Med.* April 1995 51;4:A681.
